Additional location (beyond the 2 included)	+\$690 / mo each	+\$49 / mo each
AI Voice Agent overage (Ultra only, past 300 min/loc)	\$8.50 / min	\$0.59 / min

FEATURES, BENEFITS & TIER PLACEMENT

Basic

\$1,990 MXN · \$129 USD / mo

For a local business (often family-owned, frequently no website) whose entire presence is a Facebook page — their storefront *and* front desk.

- **AI assistant on Facebook Messenger, 24/7** — trained on your products, prices, hours, policies & tone; answers in seconds in EN/ES automatically. You stop losing leads to slow replies — under-5-second response keeps Facebook's "responds quickly" badge; first to answer wins.
- **Google review management — with your approval** — drafts/manages responses; nothing posts without sign-off. A steady, professional review presence (top local-trust signal) without you writing a word.
- **Lead capture + owner notifications** — captures name, contact & intent (consent-gated) and pings you when a lead is hot. You're pulled in only when someone's ready to buy — with context already gathered. (*Instant WhatsApp alerts on the way.*)
- **Fully managed** — CushLabs builds, trains, connects, tests & monitors it. No software to learn, no builder to configure. It just works.

Premium ★ MOST POPULAR

\$3,490 MXN · \$229 USD / mo

EVERYTHING IN BASIC, PLUS

- **Website chatbot** — the same AI brain as a widget on your site. Captures/answers visitors on your website too — one assistant, two surfaces, consistent answers.
- **Weekly local SEO & competitor report** — automated weekly report on your local rank and nearby competitors' moves. You see where you stand and where to move, every Monday — no agency, no dashboards.

Ultra

\$5,490 MXN · \$349 USD / mo

EVERYTHING IN PREMIUM, PLUS

- **AI Voice Agent — 300 answered min per location/mo** — inbound agent that answers missed calls; overage \$8.50 MXN / \$0.59 USD per min. Missed calls become captured leads — critical for clinics & high-call-volume businesses.
- **Priority support** — front-of-line response. Faster turnaround when you need a change now.
- **Industry tuning (e.g. healthcare)** — vertical-specific customization. Sounds like it belongs in your industry — matters for regulated, high-trust fields.

On every plan: No setup fee · no contract · cancel anytime · 2-week free trial (multi-location rollouts trial on 1–2 locations first, then expand) · unlimited conversations (fair use, ~1,000/mo/location internal soft cap) · mx SPEI / OXXO / CFDI invoice · usca pay by card + invoice.
